

▶概述 Description

- ■■本系列十字开关,结构紧凑、安装简便、操作灵活、工作可靠;使用寿命在百万次以上,随着操作杆的倾斜,触点便随着接通或分断,且使用该产品误操作的可能性降到了最低程度。程木式触点块结构可任意增加和减少触点对数。广泛使用于各种工业机械设备上进行频繁的接通和分断控制线路。
- This series cross switch is characterized by compact struc ture, convenient install ation, easy operation and reliable work. It can be used for over 1 million times. With the leaning of the lever, its contact can be connected or disconnected. And its operation errors can be reduced to the minimum level. The block type contact is able to increase or reduce the pairs freely. It is widely used in circu its with frequent connection and breaking controls in various industrial and mechanical equipments.

▶型号注释 Model Explain

向 位 Orientation:

2方向: Two Way 、3方向 Three Way 、.4方向 Four Way、

动作方式 Action Way:

F: 自动复位 Self-Reset、T: 自锁 Self-Hold

▶技术参数 Technical Data

接触电阻 Contact Resistance	50mΩ
绝缘电阻 Lnsulation Resistance	500VDC 100MΩ Min
周围温度 Around Temperature	-20~+50
电气寿命 Electrical Life	500000 Cycles
特 点 Feature	橡胶衫套具防水、防油、防尘等功能 A rubber unlined upper garment set of waterproofing, guards against the oil, dustproof and so on the functions
