

RCY CONNECTOR

Disconnectable Crimp style Wire-to-wire connectors

The RCY connector is a compact, 2.5mm pitch wire-to-wire connector for use with a variety of circuits, from signal circuits to power supply circuits, in electrical equipment which is becoming more and more compact. The employment of a free spring contact method ensures stable contact performance, and superb working efficiency of insertion and removal.

Features —

• Use of a free spring contact for superb creep characteristics

The contact section features a free spring contact construction, which effectively minimizes stress (creep) caused by repeated insertion and removal at high temperatures. Connector insertion and removal is also smooth, ensuring stable connection performance.

Compact design

The RCY connector is designed to be compact. When mated, its overall length is just 23.3mm and its thickness is 4.0mm.

Housing lock

Because a lock is provided inside the housing, external force is not applied to the lock.

Specifications -

• Current rating: 3A AC, DC max. • Voltage rating: 250V AC, DC max. • Temperature range: -25°C to +85°C

(including temperature rise in applying

electrical current)

• Contact resistance: Initial value/10m Ω max.

After environmental testing/20m Ω max.

• Insulation resistance: 500M Ω min. • Withstanding voltage: 1,500V AC/minute

• Applicable wire: AWG #28 to #22 0.08 to 0.33mm²

* Compliant with RoHS.

* Refer to "General Instruction and Notice when using Terminals and Connectors" at the end of this catalog.

* Contact JST for details.

Note: The current rating varies depending on the wire size used in each connector.

> The table below lists the current rating as a function of the wire size.

> > Current unit: A

| Circuits | Wire size (AWG) | | | |
|----------|-----------------|-----|-----|-----|
| | #22 | #24 | #26 | #28 |
| 2 | 3 | 2 | 1 | 0.5 |
