

# AC ILLUMINATED PUSH BUTTON SWITCHES

## ■ Features

- The power switch conforms to safety standards for electrical equipment.
- A superior space factor by reducing the depth dimension.
- The snap-in type for easy mounting.
- The color can be changed to correspond to the set design.

## ■ Characteristics

Item	Standard
Rating	16 ( 4 ) A 250VAC
Insulation Resistance	100M $\Omega$ min ( DC 500V )
Dielectric Strength	AC 1000V ( 50/60Hz for 1 minute )
Contact Resistance	50m $\Omega$ max
Electrically Life	10,000 cycles
Operating Temperature Range	-25°C ~ +85°C

## ■ Applications

- Data processing equipment and office equipment such as copiers which consume high of power, and general equipment such as monitors, home electric equipment and power supply.
