## WX14-12

| Potentiometer WX14-12       |                                    |
|-----------------------------|------------------------------------|
| Range of nominal resistance | 27 $\Omega$ -22K $\Omega$          |
| Resistance tolerance        | $\pm 5\%$ $\pm 10\%$               |
| Operating voltage           | 200V                               |
| Rated power                 | 3W ( 85 $^{\circ}$ C )             |
| Total mechanical travel     | 300 $^{\circ}$ $\pm$ 10 $^{\circ}$ |
| Starting torque             | 3.5-100mN.m                        |
